## ***The Result:***

This race is still evolving but the Euros were emboldened by **BIG EVS** win in '23 at Santa Anita. They came in force along with a Japanese invader that had just broken a 6f record over there. Of the 12 going to post, 8 were invaders. The bettors were having a tough time but finally settled on the Japanese invader, **ECORO SIEG** as the 5-2 fave. I had put in a Pick 6 play and was alive through the first leg. I went plenty deep in here but, at the last minute, decided to substitute Aidan O'Brien's **IDES OF MARCH** for **MAGNUM FORCE** simply based on connections. Bad move. Despite tabbing him as my **CO-BOMBER** and his **GRAY ZONE** status, I left him off the main ticket. My wagering was centered around **GOVERNOR SAM**. And I looked like a winner around the far turn as the **GOV** opened up only to get caught late by two Euros: **MAGNUM FORCE** and longshot **ARIZONA BLAZE**. I've made these audibles before and sometimes they work out. Other times, like in this race, not so much. Stick to the script, Mazur.

## *The Result:*

In the previous nine SA-hosted Juv Fillies, SoCal homers took 7 of those editions. But this year Bob Baffert's star filly NON COMPLIANT was a vet scratch and his other entrant NOONI didn't fit the definition of the *Crushing Zone's* NOW FILLY. In fact, only Frizette winner SCOTTISH LASSIE fit the criteria (90 Beyer and fast "come home time") but she was trying to win this off just two starts. Not impossible but difficult. IMMERSIVE looked good in winning the Alcibiades but her "come home time" and 80 Beyer were not impressive. In this field she was my CO-MOST LIKELY but, in order to make my Pick 6 affordable, I decided to single SCOTTISH LASSIE on the main ticket and backups. Japanese invader AMERICAN BIKINI took action (4-1) but was a mystery to most. NOONI tried to steal it. But IMMERSIVE blew by and won for fun. SCOTTISH LASSIE chased but tired. AMERICAN BIKINI finished last. VALUE PLAYER QUICKKICK ran 3rd and BOMBER (for pieces) VODKA WITH A TWIST ran 2nd as predicted. My Pick 6 tickets were all dead.

## ***The Result:***

The history of this race is pretty straight forward: stick with the domestics coming out of the Ms. Grillo, Natalma and maybe the Jessamine. Chad Brown had won 5 of the last 9 editions. Although a Euro won in '22, they usually didn't make an impact. Yet, in this edition, Euro LAKE VICTORIA was installed as the 4-5 fave! Local turf star THOUGHT PROCESS was second fave despite the fact that the locals have never won this race. Meanwhile the runners from the key preps were all slipping away at huge prices. My MOST LIKELY was 30-1. Brown's VIRGIN COLADA (2nd in Ms Grillo) was 18-1. Jessamine winner MAY DAY READY was 13-1. Those were the "A" TEAMERS. But LAKE VICTORIA proved to be the real deal winning by daylight over the unbeaten MAY DAY READY. Ms. Grillo and Natalma didn't produce and the SoCal filly was nowhere to be found. I cashed a small exacta saver on MAY DAY READY but a \$3.40 BC winner, Euro or domestic, doesn't help anyone CRUSH THE CUP.

## ***The Result:***

As expected, **EAST AVENUE** and **CHANCER MCPATRICK** were installed as the 1-2 faves. The former looked to have a better chance than the late-running **CHANCER**. But with **CITIZEN BULL** sitting at 15-1 as part of a Bob Baffert trio, I knew there was only one play: key on him to win and box the Bafferts in the exacta and trifecta and split them with **ALL** in the first two slots of the trifecta. **GETAWAY CAR**, favored in all of his four starts was the longest of the Bafferts at 28-1. **GAMING** was trying to go sprint to route off a win in the 7f Del Mar Futurity.

Although a bad break for those who backed **EAST AVENUE**, his stumble out of the gate left the Bafferts running 1-2-3 for most of the race. **CITIZEN BULL** was on the lead and the other two were protecting his flank. It looked like a Baffert sweep and a major score on my \$10 trifecta box but Euro invader **HILL ROAD** nipped **GETAWAY CAR** at the wire for the show. I couldn't complain though as I had a healthy win wager, exacta and daily doubles finishing and going forward. Still the trifecta calculator told me I had missed a \$10k payday by a neck. But the lessons we have preached in the *Crushing Zone* still pay dividends: always respect the uncoupled entry angle especially a Baffert UE.

## ***The Result:***

Historically, this race runs the exact opposite of the fillies counterpart: the Euros dominate. Other profile points: (1) If not a Euro than maybe a domestic from the Pilgrim; (2) never been a wire winner; and (3) never been a SoCal-based winner.

The above guided me to four Euro imports and Chad Brown's Pilgrim winner, ZULU KINGDOM. Two of the Euros—NEW CENTURY and AL QUADRA—had deviated from historical prep paths and shipped over in September for the Summer Stakes at Woodbine. They ran 1-2 continuing a rivalry that had been going on all summer in Europe.

# *Juvenile Turf continued*

**AL QUADRA** was running uncoupled with his Godolphin running mate **AOMORI CITY**. And trainer Charlie Appleby was on record that **AOMORI CITY** was considered the better of the two.

This was important because the Summer Stakes hadn't produced a Juvenile Turf winner since 2010. But this was the first time I could remember that Euros shipped over. Still history is history.

Others in the field included favorite **HENRI MATISSE** saddled by Aidan O'Brien, a multiple winner of this race.

Another Euro trainer, the obscure (to us anyway) Hugo Palmer was starting two as well. Todd Pletcher had **MENTEE** and **NOBLE CONFESSOR**, the latter being the Pilgrim runner-up. And then there was the Japanese invader **SANTONO CARNAVALE**, a colt getting solid reviews from the clockers.

Taking a page from the previous race, I played all of those uncoupled entries in separate exacta and trifecta tickets. There were too many to mix and match.

I then bet **AOMORI CITY** to win as he was the longer odds (9-1) of the Godolphin entry and used him underneath with the logicals. I then keyed him to run third in the trifecta with those logicals.

And history held sway in this one. The Euros looked like sweepers for the trifecta until a late-running SoCal local named **IRON MAN CAL** slipped between them to earn the place slot at 29-1.

Despite three logicals (all 1-2 faves) in the sequence, the longshot wins by **MAGNUM FAVORITE** and **CITIZEN BULL** bolstered the Pick 6 payoff to \$39k. I was nowhere near that one nor the Pick 5 that paid somewhat less \$4,700. Still I had nice successes in the Juvenile, proving that it only takes one race to **CRUSH THE CUP**.
